The Standard
AND RIVER PLATE NEWS.

No. 3,661 —Fourteenth Year BUENOS AYRES, SUNDAY JULY 12 1874. Circulation, 3000.

MAUA BANK
161 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

P. P. MAUA & CO.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Jose M. La Fuente,
Secretary.

RODOLFO NEWBERY,
Brothers,
American Dentists
(Formerly of MONTEVIDEO,)
Associated with Don TOMAS COQUET.

108 CALLE MAIPU

Having received several very important improvements, viz.:—

Morison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness, and without danger of fracturing the most delicate enamel, Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burrs again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incenes that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,110 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

An English School
FOR
YOUNG GENTLEMEN

Is now opened in MONTEVIDEO under the general direction of the English Chaplain, assisted by the—

Rev. J. K. Law, B. A. of Christs College, Cambridge.

THE INSTRUCTION will comprise the ordinary branches of school Education, such as History, Geography, &c. The English, French, German, Italian and Spanish languages, the Classics, Mathematics, Drawing Music, and the various Sciences practically applied.

Mr. Law brings out with him from England Scientific apparati, and the latest and best class-books.

Strict attention will be given to moral as well as mental training, without any attempt to interfere with the religious belief of the pupils.

For a few weeks the School will be held at 222 Calle de San Jose, until suitable premises can be obtained.

Terms, 8$ per month, including English and Latin. Other subjects extra. Inclusive terms (if desired) embracing all the above subjects, except Music and Drawing, an ounce per month. Boarders 500$ per month, a reduction being made where two or three come from the same family.

NEW ADVERTISEMENTS

BRONCHITIS, LOSS OF THE VOICE.—A change of climate however beneficial in itself, will not cure bronchitis or the loss of voice; but Lamman and Kemp's Pure Cod Liver Oil will effectually cure it. Rev. Heber Rapelye, of Milwaukee, at present in Valparaiso, whither he removed, and entertaining hopes that the genia lity of the climate would benefit him, from a chroni affection of the throat with which he had been suffering for a number of years, speaks of the results as follows—"The change itself did not help me much, but whilst residing in Valparaiso I was induced to take Lanman and Kemp's Cod Liver Oil, and after using it steadily for two months, am happy to say, that I find my self much better. My voice is quite as clear and strong as before, and I cherish the hope of recovering entirely. Providence be praised for my deliverance, in having so ordained it that I should have been prevailed to try this excellent remedy. Other similar oils may be efficacious but I am thoroughly convinced that Lanman and Kemp's Cod Liver Oil is all that it is represented to be, and therefore, I do not hesitate to recommend it.' Persons, to whom oil of any kind is repulsive, will do well to mix it with, or drink, immediately afterward, two spoons full of Peccoral of Anacahuita. cj | No. 17 jy 12

THE THOMSON BONAR LOAN.

The Finance Committee of the Legislature of Uruguay has published its report on the proposals of Messrs. Thomson Bonar and Co. as contained in the *Ad-referendum* contract signed between them and the Uruguay Commissioner, Dr Perez Gomar. The chief amendment suggested by Thomson Bonar, and accepted by the Legislative Committee, is to double the rate of sinking-fund, namely 2 per cent amortization instead of 1 per cent as in the law of October 1873.

The report of Committee fills 4 columns of closely printed matter, but may be condensed in a few lines.

1st. The President or his Ministers have no right to consult the Legislature whenever they find themselves in any doubt or difficulty, but should act up to the best of their judgment.

2nd. In the present case the publicity given to Perez Gomar's proceeding and the proposals of Thomson Bonar will be productive of much good, especially as the Government rejects Thomson Bonar's suggestion to raise the value of Montevidean stock in London by artificial means.

3rd. The Committee find some difficulty in getting over the contract made last November with the German Bank and D. Rafael Fragueiro, giving them the carriage of the loan in return for advances of 400,000$ per month. The contract stipulates that the Government agents are always to consult the views of the above parties, yet Perez Gomar omitted them altogether in his dealings with Thomson Bonar. However, as the German Bank and Fragueiro were to conclude the loan in 8 months, and seemed little likely to succeed, an arrangement may be arrived at amicably with them.

4th. Thomson Bonar require 3 per cent. amortization after 5 years expire, and 1 per cent. till then. The Committee prefers 2 per cent. from the first.

5th. The commission of 2½ per cent. must be only on as much of the loan as floated.

6th. Not all the customs-revenues at present hypothecated, but only as much as suffice for interest and amortization will henceforth be affected by the new loan.

7th. Thomson Bonar want to pay 1 per cent. less than Bank of England rate for balances in their hands. The Committee urge the Government to insist on the same interest as the Bank rate.

8th. Thomson Bonar to guarantee at least one-third of the Loan before emitting any bonds.

9th, The Government to fix a term within which the loan to be negotiated, and in case of failure Thomson Bonar to have no claim for damages or expenses.

10th. Facilities to be provided in London for holders of redeemable debts to exchange for the new scrip. The latter will only give them, at 75, equal to 8 per cent. for their money, instead of 12 as at present, but they will make 25 per cent. ultimately when the new scrip comes to be redeemed at par.

11th. The Government ought to declare the contract with the German Bank and Fragueiro to have lapsed as it was only for 8 months, prolongable to 12 if chances of success appeared.

12th. Mr. Perez Gomar or other commissioner to be sent back to London to confer with Thomson Bonar as to launching the Loan on the following bases—

Art. 1. The Government is hereby authorized to effect a foreign loan up to the amount of $27,260,000 m/n. or £5,800,000 sterling at a minimum rate of 75, less 2½ per cent commission and expenses. The net proceeds of the loan to be devoted exclusively to the redemption of the following Consolidated Debts—

Extraordinary Loan, 1st series....	$4,165,000
Do second series.....	4,000,000
Pacificat on, first series.....	1,936,750
Do second series.....	3.000,000
Land Redemption certificates.....	1,605,000
Second Funded Debt, bis.....	1,453,500
Consols of 1872.....	2,700,000

Making in all 18,859,250$ m/c.

Art. 2. The Government is authorized to pay 6 per cent interest and 2 per cent accumulative sinking-fund at par, drawn by lot.

Art. 3. For payment of interest and amortization as above such revenues as are at present set aside for the debts about to be redeemed, will still be devoted to the new loan so far as necessary, and proportionately in case only a part of the loan be launched.

Art. 4. In case such revenues suffice not for the purpose any deficiency will be made good out of the general revenue.

Art. 5. The commission will be payable on the portion or amount of loan launched.

Art. 6. The Government may send two Commissioners to Europe to negotiate the loan, whose only recompense will be $2,000 per month each.

Art. 7. Any contracts to be made in virtue of this law must stipulate a term of 12 months beyond which no negotiations can go.

Art. 8. The bonds of debts to be redeemed shall be received in London at par by the house effecting the loan, and bonds of the new loan given in exchange at the price of emission.

Art. 9. At earliest convenience the Government shall report progress to the Legislature in this matter.

Montevideo, July 1st 1874.

Castro, Vidal, Soto, Laoueva, Vedia, Vila.

MADERO PORT SCHEME.

After an interval of 5 years Don Eduardo Madero revives his port scheme as originally agreed upon between him and the Nat. Government. It will be remembered that the project was passed by the Deputies almost unanimously, but difficulties sprang up with the Provincial Government, and Mr Madero withdrew his proposal when before the Senate. As the general impression now seems to be that Bateman's port will be abandoned the Madero project naturally comes up a second time for consideration. We have reason to know that Mr. Alfred Moore disputes the statements and conclusions of the Port Committee, and that a lengthy counter-statement forms part of the Finance Memoria about to be presented to Congress. It must also be borne in mind that Mr Lindmark, who reports so emphatically against the Bateman experimental channel, is actually in London trying to float an opposition port scheme. The immediate effect of such conflicting evidence among scientific men is to confuse public opinion, and make people regard all port projects with distrust.

The following is Mr Madero's petition:—

B. Ayres, June, 1874.

Honorable Congress.

I, Edward Madero, Argentine Citizen, come before Y. H. and say:—That in the month of April 1869 I made a contract with the National Government through the Minister of Interior, for constructing a harbor and bonded warehouses in Buenos Ayres.

The contract was approved of almost unanimously by the Chamber of Deputies, but was withdrawn at my petition from the Senate in view of the hostile attitude assumed by the former Governor of the Province and the political character which was given to the subject in debate.

Since then I have remained a mute spectator waiting to see whether others would accomplish the grand work which I had not the satisfaction of performing.

The province of Buenos Ayres raised a loan for this object and a decree was issued affecting a part of one raised by the Nation to the same end.

The result of the studies and experiments made by Mr. Bateman is well known to every one.

I would have continued waiting the practical solution of this question, had not the allusion which H. E. the President of the Republic makes to it in his last message, and the proximity of my departure for Europe pointed out the propriety of presenting myself to Congress requesting the revalidation of that contract, with the modifications which our maritime progress in five years renders necessary.

If during the five years which have been lost nothing has been done, notwithstanding all the elements at command and the heavy disembursements made—it it is feared that nothing will be done, what objection can there be to grant me the concession I ask for to execute an 'undertaking' to which Y. H. well know I have dedicated time and money.

The realization of this scheme would suffice to cover with glory the whole of a political period, and although I ask an equitable recompense for the capital employed in it still, as a native of this country, I have a right to be considered as animated with the noble ambition of uniting my name and my efforts for the completion of a monumental work like this, whose authors will be honored alike by present and future generations.

As soon as the mission which takes me to Europe be accomplished I would dedicate to this work, all my ambition, and thus realized, the Nation would have four millions of hard dollars, and the province of Buenos Ayres another four millions to be applied to the innumerable improvements for which the country loudly calls, whilst heavy sums caused by the difference in interest would be yearly saved to the Treasury.

If the committee to which Y. H. deign to present this proposal wish to hear me before I depart for Europe, I will with pleasure obey their summons, and by giving them details may contribute to elucidate this important affair. In my absence my representative will be my father Mr. John N. Madero.

California agriculturists are going largely into ginger. They have n't got much beyond the first syllable yet, but hope to do so when their plants germinate.

MONTEVIDEAN LETTER

July 10th.

Business has been brisker to-day both on the Bolsa and in commerce; perhaps this is owing to the weather and the cold that has caused brokers to run about with great activity. The sales on the Bolsa were rather firm, and were as follows—

Deuda Interna, 2nd Series.
200,000 at 61½ for end of month.
20,000 at 60¾ do
60,000 at 62 for end of month, with option of 60,000 more.
10,00 at 62 for end of August.
Fomento Territorial.
60 shares at 31 for end of August
Deuda Fundada, 2nd Series.
50,000 at 90 for to-morrow
Obligaciones Fomento Territorial.
4950 shares at 40 for cash.

In Exchange a large amount is said to have been done, amounting to over twenty thousand pounds at 51d., besides some other amounts at a reserved rate.

The Pacific Steam Navigation Company's steamer Puno, which left yesterday, took with her £15000 for Liverpool.

Messrs. Lamport and Holt's steamer Olbers left this to-day with a full cargo; of what she takes from here I shall not be able to give you till my next, as the manifest has not as yet been made up.

Mr. Thomas Clarke, late of the firm of Messrs. Humphreys and Clarke, has started an office as shipbroker and general commission agent. This gentleman, who is so well known for his commercial capabilities and liked for his social intercourse, will, without doubt, do well, as all his well-wishers (of whom he has a great many) wish him to do.

The steamer Olbers had among her passengers Mr. W.B. Cock, who, in the short time that he has been among us, has gained the esteem of all who knew him.

An accident occurred alongside of the steamer Villa del Salto on her last voyage, that resulted in the drowning of a child of three years of age; from the best authority I learn the particulars. It appears that the Captain saw a boat hailing him as it is very customary for passengers to come off to any steamer that might be passing either up or down the river; he ordered the engines to be stopped, but through the stupidity of the boatman, and the current that runs in the Uruguay, the boat containing two gauchos, one woman and two children came in contact with the wheels of the steamer before they had been brought to a stand still, the boat was capsized and all fell into the water, all were saved with the exception of the above mentioned child, and the woman owed her life to the energetic efforts made by an English fireman on board for whom a subscription was immediately raised by the passengers; no blame can be attached to the Captain or any of the officers on board.

Robberies are again on the increase, and a most atrocious one was committed yesternoon at the house of one of our most celebrated music masters, who had gone out to give his usual daily lessons; whilst absent a 'carro de mudanza' drove up to the door, and the thieves with the greatest coolness took all the furniture that the cart could carry and got clear away without leaving any trace.

Sales in the market to-day have not been on a very large scale, from what I gather they have been as follows—

500 boxes Sardines a $50 per four tin, duty paid.
1200 boxes Fire Crackers a 1$50 each, duty paid.
1000 boxes Radiant Kerosene a 35 cs. gallon duty paid.
2000 bdles Fencing wire to arrive at 4$80 duty paid.

Part of the cargo that I reported to be sold to-day that arrived here in the Lillian, was disposed of by Public auction, the lot sold was that of 40 mil feet of damaged white pine at 36$50 per mil, duty paid, cash down and without any allowances.

THE NEW GUNBOATS.

(*Communicated.*)

We congratulate the country and give all due praise to the President and his Government on the occasion of the arrival in our port of the two gunboats, the Parana and Uruguay, under the flag of the Argentine Republic.

These beautiful and efficient vessels, the first ever constructed by order of Government, foreshadow the organization of a Navy we stand greatly in need of as a means of defence, without which no Government having such a Coast line and water country to protect can properly guarantee the Nation its peace and prosperity. These gunboats we learn will soon be followed by two iron clads adapted to the physical condition of our waters. Built in the best manner by the Messrs. Laird, builders than whom there are none more eminent in Europe, they are designed to meet the most sanguine expectations of the Government and Nation.

We have had opportunity of looking over these gunboats, and into the various apartments, those for ammunition, projectiles, small arms, stores, provisions, accommodation for officers and men, and we find a distribution and occupation of space truly worthy of admiration; and as a whole, with their powerful battery constituting as perfect and efficient men of war, of their class, as ever crossed the Ocean.

The power of their batteries, as explained to us by their accomplished commanders, who are officers of the Royal Navy employed to bring these gunboats out and deliver them over to the Government, is, above all other considerations, that which constitutes these vessels the efficient men-of-war that they are. The system of rifling or 'building up' being entirely of the best steel—peculiar to the eminent builders, J. Vavasseur and Co., London Ordnance Works—gives to these guns a power of penetration superior to that of any other guns of the same class; for we learn that from experiments made at Woolwich, the Royal Arsenal, the power of this gun is equal, at 1000 yards, to the gun of similar conditions, but differing in rifling, at 500 yards.

In noticing thus concisely the arrival of these gunboats in the port of Buenos Ayres, we should not omit giving due credit to Captain Page, so well known among us, for his agency in having the country supplied with them and the ironclads that are to follow, as also the system of defences we are aware he has so persistently advocated, and which we hope the Government will prosecute to a successful termination.

We were aware some years ago that Captain Page laid before Government a system of defences by land as well as water, as far back as during the administration of General Mitre, which would most probably have been adopted but for the President's absence in Paraguay as Commander-in-Chief of the allied forces; and, pursuing the same course on the coming in of the present administration under Mr. Sarmiento, he finally received instructions to proceed to Europe, in 1869, to obtain all information relative to the most suitable vessels, the best guns for ships and coast defences, the best small arms for infantry and cavalry, and the system of electric torpedoes, which he had so urgently pressed upon the Government as a powerful means of defence and attack.

On his return, we remember, in 1870, with the information required, the country was unfortunately involved in a war with Lopez Jordan in Entre Rios, and could not at that time avail itself of the information brought. But in 1872 the President, having adopted the class of vessels proposed, commissioned Captain Page, in cooperation with Mr. Garay, the commissioner, to build, with those builders in Europe in whom he had the most confidence, the class of vessels he had advised; and the two gunboats alluded to are the first fruits of his labors. We trust that they will prove the nucleus of a navy creditable to the country in its now prosperous condition.

EDITOR'S TABLE.

Nothing new yesterday morning. No steamer from Europe. The Mount news will be found in our Letter. It looks as if B O is going in for the T B Loan 'cout que coute.' The tide of opinion in the London papers respecting Uruguayan finances seems to have taken a slightly more favorable turn since the terrific onslaught made on them by the *Liverpool Mercury* and *Telegraph*; but the Paraguayan Repudiation business has given most South American securities a sensible shake.

"On dit" that we'll have the Cable through from this to Europe in about six weeks more. Meanwhile, parties who send messages up to Rio for transmission should bear in mind that it takes exactly 2½ hours to send a message between Rio and London. Allowing for the difference of time 3h. 10m., a despatch sent from Rio at noon will reach London at 5.40 p.m., quite too late for any business on the same day. A wire from London to Rio at noon, allowing 2½ hours for its transmission, will, on the contrary, reach Rio at 11.20 a.m., or 40 minutes before it was sent.

We have at last traced the bogus war telegram from Valparaiso last month to its source. The *Panama Star* of June 1st publishes the following wire from the "Jamaica Agency of the New York Press"—"Kingston, Jamaica, May 20, 1874. A misunderstanding has arisen between France and Germany, in consequence of the frontier fortifications prosecuted by the MacMahon administration, and an army of 400,000 men under Moltke are ordered in readiness. Great alarm prevails, and the public mind is much unsettled." The Jamaica agent of the New York Press is evidently a rum customer. A friend of ours suggests he ought to be caned for telegraphing such a gigantic crammer.

The department of Engineers publishes the monthly statement to May 31st of the works of the Tucuman Railway, as certified by Mr. Dahlquist. The amount paid by Government for works in May was 222,600$, making a total up to the present of 2,285,145$, say one-fourth the estimated cost of the line. The items of payment are summed up thus:—

Paid for land	69,396$
Wood-clearing	31,307
Earthworks 1st section.....	374,310
Do. 2nd section	118,219
Do. 3rd section	1,0 0
Do. 4th section	60,346
Bridges and viaducts.....	66,98>
Level crossings	110
Permanent way	139,-72
Stations (3)	16,000
Workmen's huts.....	6,43o
Elec. telegraph	3,700
Rolling-stock	71,25>
Materials collected	1,110,216
Plans, surveys, &c.....	217,14o
Total.....	2,285.145$

There are 30 miles completed for traffic, 30 approaching completion, 3 locomotives, 60 waggons, 3 stations, 3 bridges, 38 culverts, 1 viaduct, already finished; besides materials comprising 435,000 sleepers, 9,001 tons of railway iron, &c. This shews how actively the works are pushed forward.

One of the new steamers for the Vermejo—The Congreso Argentino, has been launched at Barracas. She is 105 feet long, and draws unloaded only ten inches of water. She will go up to Salta in about a month, with the Leguizamon as a consort.

In Congress on Friday the Deputies sent to committee a petition from Messrs. J P Boyd and William Thompson asking for a year's additional time to finish the Campana Railway. Deputy Lucero's bill for establishing an Agricultural Inspector in each of the provinces was also sent to Committee. The Committee recommended Messrs. Coudary and Co.'s bill for a railway from Cordoba to the Caleras, with 7 per cent National guarantee. After a short debate the bill was passed and the House rose.

Lord Mayor Cunard unceremoniously turned a lot of young fashionables out of the Municipality on Thursday night. Some weak Aldermen had given the young people permission to dance, and had ordered the Police band in to play for them; but the Lord Mayor bundled the players and the 'pollas' out. Quite right. Dancing and tomfoolery at the Mansion House while thousands of poor creditors are clamouring in vain at its doors are very much out of place.

Another poor artilleryman had his arm blown off on Thursday in the Once de Setiembre Battery while a salute was being fired. As regularly as a National Anniversary comes round we have to report an accident of this kind. This speaks but little for the skill of the artillery officers in instructing their men. A colleague says Prussian guns were used, so there is no excuse this time for such a lamentable occurrence.

Swelled Up—"Fellow trabellers," said a colored preacher, "et I had been eatin' dried apples for a week, an' den took to drinkin' for a mont', I couldn't feel more swell'd up dan I am dis minit wid pride an' wanity at seein' such full tendance har dis evenin'."

The local managing committee of the Navarro Racing Club deem it advisable, in consequence of the continued bad state of the camps, and of the general desire of the members of this club, to postpone these races, already announced to take place on the 1st and 2nd of September. The committee have further resolved (provisionally) to hold the next meeting, of which due notice will be given, in April or May of the ensuing year.

Football.—On Thursday last the return match, England v. the World, was played at Flores, but it was evident from the small attendance that other attractions had influenced many of the most regular players. All through the game England showed itself stronger than its opponents, and won by two goals to none. W. Tyndale, R. Walkinshaw and L. Woodhouse, distinguished themselves by some brilliant play, and the place-kicking was superior to that shown in the former match.

A new convent is about to be founded in this city by the Carmelite Order. Four Sisters have recently arrived to start it.

The official report of the city health for the fortnight says that illness has declined.

A young lady of 18 fled from her father's house in Calle Tucuman two days ago. We suppose there is a Lothario in the case.

The Italian chapel in Calle Moreno was robbed of 50 gold rings, 25 pair of earings and 12 brooches by some sacreligious ruffians, all taken from a statue of the Virgin. Some nights ago.

The fine steamer Thales entered port yesterday with several Irish passengers. It is most distressing to find that the influential 'gremio' of shipbrokers will persist in mispronouncing the name of this fine steamer. 'The Thayles is in'! was the cry of them all on 'Change yesterday. Thahles, gentlemen, Thahles, for Heaven's sake! It is really shocking to find so influential and so Conservative a body utterly ignorant of even the Greek alphabet. Will no merchants of superior attainments undertake to show them the example of pronouncing the word correctly? Some brokers again go in for Theeles, Theless and other butchery of the word. By the time the ship returns from Rosario, we shall not be surprised to hear her called the Tea-leaves, or even the Tay-laves.

Mr. Daws, the famous literary caterer sent us yesterday all the latest London magazines. As to-day is a holiday, we hope to be able to review some of them in our next. Mr. Daws has extra numbers of 'Bow Bells,' Family Herald, London Journal and Young Ladies Journal, which new subscribers entering now can procure.

Thrilling news from San Isidro! On the 8th inst. the police broke open a suspicious looking house, erected alongside the line, two squares from station, and upon entering found skulls, skeletons, old daggers, &c. to any amount, which on the public hearing of it caused great excitement, and in about two or three hours after it became known, the most absurd rumours were knocking about, some saying there was a fresh dead body and skull; also a woman's head. Three men were taken to the Policia, but afterwards liberated. The Juez de Paz closed the house, and went to see Government about it.

At 7 a.m. on the 9th inst. an Italian was stabbed to death near the S. Isidro Station, in the centre of the town, and the knife left buried in the victim's stomach. There were two letters cut on the handle of the knife, by means of which the owner of the knife has been apprehended, and now lies in prison; so we may count on having another frontier protector in the person of the assassin. The motive is supposed to have been robbery.

Advices from Cordoba state that it has not rained up there for two months and that the cattle are all as thin as whipping posts.

The Royal Mail steamer Boyne will sail on Wednesday. Packet Edition on Tuesday immediately after breakfast.

NEW ADVERTISEMENTS

BRONCHITIS, LOSS OF THE VOICE.—A change of climate however beneficial in itself, will not cure bronchitis or the loss of voice; but Lanman and Kemp's Pure Cod Liver Oil will effectually cure it. Rev. Heber Rapelye, of Milwaukee, at present in Valparaiso, whither he removed, and entertaining hopes that the genial ity of the climate would benefit him, from a chroni affection of the throat with which he had been suffering for a number of years, speaks of the results as follows—"The change itself did n t help me much, but whilst residing in Valparaiso I was induced to take Lanman and Kemp's Cod Liver Oil, and after using it steadily for two months, am happy to say, that I find my elf much better. My voice is quite as clear and strong as before, and I cherish the hope of recovering entirely. Providence be praised for my d liverance, in having so ordained it that I s ould have been prevailed to try this excellent remedy. Other similar oils may be efficacious but I am thoroughly convinced that Lanman and Kemp's Cod L ver Oil is all that it is represented to be, and therefore, I do not hesitate to recommend it.' Per ons, to whom oil of any kind is repulsive, will do well to mix it with, or drink, immediately afterward, two spoons full of Pecoral of Anacahuita. cj | No. 17 jy 12

THE THOMSON BONAR LOAN.

The Finance Committee of the Legislature of Uruguay has published its report on the proposals of Messrs. Thomson Bonar and Co. as contained in the *Ad-referendum* contract signed between them and the Uruguay Commissioner, Dr Perez Gomar. The chief amendment suggested by Thomson Bonar, and accepted by the Legislative Committee, is to double the rate of sinking-fund, namely 2 per cent amortization instead of 1 per cent as in the law of October 1873.

The report of Committee fills 4 columns of closely printed matter, but may be condensed in a few lines.

1st. The President or his Ministers have no right to consult the Legislature whenever they find themselves in any doubt or difficulty, but should act up to the best of their judgment.

2nd. In the present case the publicity given to Perez Gomar's proceeding and the proposals of Thomson Bonar will be productive of much good, especially as the Government rejects Thomson Bonar's suggestion to raise the value of Montevidean stock in London by artificial means.

3rd. The Committee find some difficulty in getting over the contract made last November with the German Bank and D. Rafael Fragueiro, giving them the carriage of the loan in return for advances of 400,000$ per month. The contract stipulates that the Government agents are always to consult the views of the above parties, yet Perez Gomar omitted them altogether in his dealings with Thomson Bonar. However, as the German Bank and Fragueiro were to conclude the loan in 8 months, and seemed little likely to succeed, an arrangement may be arrived at amicably with them.

4th. Thomson Bonar require 3 per cent. amortization after 5 years expire, and 1 per cent. till then. The Committee prefers 2 per cent. from the first.

5th. The commission of 2½ per cent. must be only on as much of the loan as floated.

6th. Not all the customs-revenues at present hypothecated, but only as much as suffice for interest and amortization will henceforth be affected by the new loan.

7th. Thomson Bonar want to pay 1 per cent. less than Bank of England rate for balances in their hands. The Committee urge the Government to insist on the same interest as the Bank rate.

8th. Thomson Bonar to guarantee at least one-third of the Loan before emitting any bonds.

9th. The Government to fix a term within which the loan to be negotiated, and in case of failure Thomson Bonar to have no claim for damages or expenses.

10th. Facilities to be provided in London for holders of redeemable debts to exchange for the new scrip. The latter will only give them, at 75, equal to 8 per cent. for their money, instead of 12 as at present, but they will make 25 per cent. ultimately when the new scrip comes to be redeemed at par.

11th. The Government ought to declare the contract with the German Bank and Fragueiro to have lapsed as it was only for 8 months, prolongable to 12 if chances of success appeared.

12th. Mr. Perez Gomar or other commissioner to be sent back to London to confer with Thomson Bonar as to launching the Loan on the following bases—

Art. 1. The Government is hereby authorized to effect a foreign loan up to the amount of $27,260,000 m|c. or £5,800,000 sterling at a minimum rate of 75, less 2½ per cent commission and expenses. The net proceeds of the loan to be devoted exclusively to the redemption of the following Consolidated Debts—

Extraordinary Loan, 1st series	$4,165,000
Do second series	4,000,000
Pacificat on, first series	1,936,750
Do second series	3,000,000
Land Redemption certificates	1,605,000
Second Funded Debt, bis	1,463,500
Consols of 1872	2,700,000

Making in all 18,859,250$ m|c.

Art. 2. The Government is authorized to pay 6 per cent interest and 2 per cent accumulative sinking-fund at par, drawn by lot.

Art. 3. For payment of interest and amortization as above such revenues as are at present set aside for the debts about to be redeemed, will still be devoted to the new loan so far as necessary, and proportionately in case only a part of the loan be launched.

Art. 4. In case such revenues suffice not for the purpose any deficiency will be made good out of the general revenue.

Art. 5. The commission will be payable on the portion or amount of loan launched.

Art. 6. The Government may send two Commissioners to Europe to negotiate the loan, whose only recompense will be $2,000 per month each.

Art. 7. Any contracts to be made in virtue of this law must stipulate a term of 12 months beyond which no negotiations can go.

Art. 8. The bonds of debts to be redeemed shall be received in London at par by the house effecting the loan, and bonds of the new loan given in exchange at the price of emission.

Art. 9. At earliest convenience the Government shall report progress to the Legislature in this matter.

Montevideo, July 1st 1874.

Castro, Vidal, Soto, Lacueva, Vedia, Vila.

MADERO PORT SCHEME.

After an interval of 5 years Don Eduardo Madero revives his port scheme as originally agreed upon between him and the Nat. Government. It will be remembered that the project was passed by the Deputies almost unanimously, but difficulties sprang up with the Provincial Government, and Mr Madero withdrew his proposal when before the Senate. As the general impression now seems to be that Bateman's port will be abandoned the Madero project naturally comes up a second time for consideration. We have reason to know that Mr. Alfred Moore disputes the statements and conclusions of the Port Committee, and that a lengthy counter-statement forms part of the Finance Memoria about to be presented to Congress. It must also be borne in mind that Mr Lindmark, who reports so emphatically against the Bateman experimental channel, is actually in London trying to float an opposition port scheme. The immediate effect of such conflicting evidence among scientific men is to confuse public opinion, and make people regard all port projects with distrust.

The following is Mr Madero's petition:—

B. Ayres, June, 1874.

Honorable Congress.

I, Edward Madero, Argentine Citizen, come before Y. H. and say:—That in the month of April 1869 I made a contract with the National Government through the Minister of Interior, for constructing a harbor and bonded warehouses in Buenos Ayres.

The contract was approved of almost unanimously by the Chamber of Deputies, but was withdrawn at my petition from the Senate in view of the hostile attitude assumed by the former Governor of the Province and the political character which was given to the subject in debate.

Since then I have remained a mute spectator waiting to see whether others would accomplish the grand work which I had not the satisfaction of performing.

The province of Buenos Ayres raised a loan for this object and a decree was issued affecting a part of one raised by the Nation to the same end.

The result of the studies and experiments made by Mr. Bateman is well known to every one.

I would have continued waiting the practical solution of this question, had not the allusion which H. E. the President of the Republic makes to it in his last message, and the proximity of my departure for Europe pointed out the propriety of presenting myself to Congress requesting the revalidation of that contract, with the modifications which our maritime progress in five years renders necessary.

If during the five years which have been lost nothing has been done, notwithstanding all the elements at command and the heavy disemburements made—it it is feared that nothing will be done, what objection can there be to grant me the concession I ask for to execute an undertaking to which Y. H. well know I have dedicated time and money.

The realization of this scheme would suffice to cover with glory the whole of a political period, and although I ask an equitable recompense for the capital employed in it still, as a native of this country, I have a right to be considered as animated with the noble ambition of uniting my name and my efforts for the completion of a monumental work like this, whose authors will be honored alike by present and future generations.

As soon as the mission which takes me to Europe be accomplished I would dedicate to this work, all my ambition, and thus realized, the Nation would have four millions of hard dollars, and the province of Buenos Ayres another four millions to be applied to the innumerable improvements for which the country loudly calls, whilst heavy sums caused by the difference in interest would be yearly saved to the Treasury.

If the committee to which Y. H. deign to present this proposal wish to hear me before I depart for Europe, I will with pleasure obey their summons, and by giving them details may contribute to elucidate this important affair. In my absence my representative will be my father Mr. John N. Madero.

California agriculturists are going largely into ginger. They have n't got much beyond the first syllable yet, but hope to do so when their plants germinate.

MONTEVIDEAN LETTER

July 10th.

Business has been brisker to-day both on the Bolsa and in commerce; perhaps this is owing to the weather and the cold that has caused brokers to run about with great activity. The sales on the Bolsa were rather firm, and were as follows—

Deuda Interna, 2nd Series.
200,000 at 61½ for end of month.
20,000 at 60½ do
60,000 at 62 for end of month, with option of 60,000 more.
10,00 at 62 for end of August.
Fomento Territorial.
50 shares at 31 for end of August
Deuda Fundada, 2nd Series.
50,000 at 90 for to-morrow
Obligaciones Fomento Territorial.
4950 shares at 40 for cash.

In Exchange a large amount is said to have been done, amounting to over twenty thousand pounds at 51d., besides some other amounts at a reserved rate.

The Pacific Steam Navigation Company's steamer Puno, which left yesterday, took with her £15000 for Liverpool.

Messrs. Lamport and Holt's steamer Olbers left this to-day with a full cargo; of what she takes from here I shall not be able to give you till my next, as the manifest has not as yet been made up.

Mr. Thomas Clarke, late of the firm of Messrs. Humphreys and Clarke, has started an office as shipbroker and general commission agent. This gentleman, who is so well known for his commercial capabilities and liked for his social intercourse, will, without doubt, do well, as all his well-wishers (of whom he has a great many) wish him to do.

The steamer Olbers had among her passengers Mr. W.B. Cock, who, in the short time that he has been among us, has gained the esteem of all who knew him.

An accident occurred alongside of the steamer Villa del Salto on her last voyage, that resulted in the drowning of a child of three years of age; from the best authority I learn the particulars. It appears that the Captain saw a boat hailing him as it is very customary for passengers to come off to any steamer that might be passing either up or down the river; he ordered the engines to be stopped, but through the stupidity of the boatman, and the current that runs in the Uruguay, the boat containing two gauchos, one woman and two children came in contact with the wheels of the steamer before they had been brought to a stand still, the boat was capsized and all fell into the water, all were saved with the exception of the above mentioned child, and the woman owed her life to the energetic efforts made by an English fireman on board for whom a subscription was immediately raised by the passengers; no blame can be attached to the Captain or any of the officers on board.

Robberies are again on the increase, and a most atrocious one was committed yesternoon at the house of one of our most celebrated music masters, who had gone out to give his usual daily lessons; whilst absent a 'carro de mudanza' drove up to the door, and the thieves with the greatest coolness took all the furniture that the cart could carry and got clear away without leaving any trace.

Sales in the market to-day have not been on a very large scale, from what I gather they have been as follows—

600 boxes Sardines a $50 per four tin, duty paid.
1200 boxes Fire Crackers a 1$60 each, duty paid.
1000 boxes Radiant Kerosene a 35 cs. gallon duty paid.
2000 bdles Fencing wire to arrive at 4$80 duty paid.

Part of the cargo that I reported to be sold to-day that arrived here in the Lillian, was disposed of by Public auction, the lot sold was that of 40 mil feet of damaged white pine at 36$50 per mil, duty paid, cash down and without any allowances.

THE NEW GUNBOATS.

(Communicated.)

We congratulate the country and give all due praise to the President and his Government on the occasion of the arrival in our port of the two gunboats, the Parana and Uruguay, under the flag of the Argentine Republic.

These beautiful and efficient vessels, the first ever constructed by order of Government, foreshadow the organization of a Navy we stand greatly in need of as a means of defence, without which no Government having such a Coast line and water country to protect can properly guarantee the Nation its peace and prosperity. These gunboats we learn will soon be followed by two iron clads adapted to the physical condition of our waters. Built in the best manner by the Messrs. Laird, builders than whom there are none more eminent in Europe, they are designed to meet the most sanguine expectations of the Government and Nation.

We have had opportunity of looking over these gunboats, and into the various apartments, those for ammunition, projectiles, small arms, stores, provisions, accommodation for officers and men, and we find a distribution and occupation of space truly worthy of admiration; and as a whole, with their powerful battery constituting as perfect and efficient men of war, of their class, as ever crossed the Ocean.

The power of their batteries, as explained to us by their accomplished commanders, who are officers of the Royal Navy employed to bring these gunboats out and deliver them over to the Government, is, above all other considerations, that which constitutes these vessels the efficient men-of-war that they are. The system of rifling or 'building up' being entirely of the best steel—peculiar to the eminent builders, J. Vavasseur and Co., London Ordnance Works—gives to these guns a power of penetration superior to that of any other guns of the same class; for we learn that from experiments made at Woolwich, the Royal Arsenal, the power of this gun is equal, at 1000 yards, to the gun of similar conditions, but differing in rifling, at 500 yards.

In noticing thus concisely the arrival of these gunboats in the port of Buenos Ayres, we should not omit giving due credit to Captain Page, so well known among us, for his agency in having the country supplied with them and the ironclads that are to follow, as also the system of defences we are aware he has so persistently advocated, and which we hope the Government will prosecute to a successful termination.

We were aware some years ago that Captain Page laid before Government a system of defences by land as well as water, as far back as during the administration of General Mitre, which would most probably have been adopted but for the President's absence in Paraguay as Commander-in-Chief of the allied forces; and, pursuing the same course on the coming in of the present administration under Mr. Sarmiento, he finally received instructions to proceed to Europe, in 1869, to obtain all information relative to the most suitable vessels, the best guns for ships and coast defences, the best small arms for infantry and cavalry, and the system of electric torpedoes, which he had so urgently pressed upon the Government as a powerful means of defence and attack.

On his return, we remember, in 1870, with the information required, the country was unfortunately involved in a war with Lopez Jordan in Entre Rios, and could not at that time avail itself of the information brought. But in 1872 the President, having adopted the class of vessels proposed, commissioned Captain Page, in co-operation with Mr. Garay, the commissioner, to build, with those builders in Europe in whom he had the most confidence, the class of vessels he had advised; and the two gunboats alluded to are the first fruits of his labors. We trust that they will prove the nucleus of a navy creditable to the country in its now prosperous condition.

EDITOR'S TABLE.

Nothing new yesterday morning. No steamer from Europe. The Mount news will be found in our Letter. It looks as if B O is going in for the T B Loan 'cout que coute.' The tide of opinion in the London papers respecting Uruguayan finances seems to have taken a slightly more favorable turn since the terrific onslaught made on them by the *Liverpool Mercury* and *Telegraph*; but the Paraguayan Repudiation business has given most South American securities a sensible shake.

"On dit" that we'll have the Cable through from this to Europe in about six weeks more. Meanwhile, parties who send messages up to Rio for transmission should bear in mind that it takes exactly 2½ hours to send a message between Rio and London. Allowing for the difference of time 3h. 10m., a despatch sent from Rio at noon will reach London at 5.40 p.m., quite too late for any business on the same day. A wire from London to Rio at noon, allowing 2½ hours for its transmission, will, on the contrary, reach Rio at 11.20 a.m., or 40 minutes before it was sent.

We have at last traced the bogus war telegram from Valparaiso last month to its source. The *Panama Star* of June 1st publishes the following wire from the "Jamaica Agency of the New York Press"—"Kingston, Jamaica, May 20, 1874. A misunderstanding has arisen between France and Germany, in consequence of the frontier fortifications prosecuted by the MacMahon administration, and an army of 400,000 men under Moltke are ordered in readiness. Great alarm prevails, and the public mind is much unsettled." The Jamaica agent of the New York Press is evidently a rum customer. A friend of ours suggests he ought to be caned for telegraphing such a gigantic crammer.

The department of Engineers publishes the monthly statement to May 31st of the works of the Tucuman Railway, as certified by Mr. Dahlquist. The amount paid by Government for works in May was 222,600$, making a total up to the present of 2,285,145$, say one-fourth the estimated cost of the line. The items of payment are summed up thus:—

Paid for land	69,396$
Wood-clearing	31,307
Earthworks 1st section	374,310
Do. 2nd section	118,219
Do. 3rd section	1,6 0
Do. 4th section	66,315
Bridges and viaducts	56,98
Level crossings	110
Permanent way	139,772
Stations (3)	16,000
Workmen's huts	6,436
Elec. telegraph	3,700
Rolling-stock	71,25
Materials collected	1,119,216
Plans, surveys, &c.	217,140
Total	2,285.145$

There are 30 miles completed for traffic, 30 approaching completion, 3 locomotives, 60 waggons, 3 stations, 3 bridges, 38 culverts, 1 viaduct, already finished; besides materials comprising 435,000 sleepers, 9,001 tons of railway iron, &c. This shows how actively the works are pushed forward.

One of the new steamers for the Vermejo—The Congreso Argentino, has been launched at Barracas. She is 105 feet long, and drawe unloaded only ten inches of water. She will go up to Salta in about a month, with the Leguizamon as a consort.

In Congress on Friday the Deputies sent to committee a petition from Messrs. J P Boyd and William Thompson asking for a year's additional time to finish the Campana Railway. Deputy Lucero's bill for establishing an Agricultural Inspector in each of the provinces was also sent to Committee. The Committee recommended Messrs. Coudary and Co.'s bill for a railway from Cordoba to the Caleras, with 7 per cent National guarantee. After a short debate the bill was passed and the House rose.

Lord Mayor Cunard unceremoniously turned a lot of young fashionables out of the Municipality on Thursday night. Some weak Aldermen had given the young people permission to dance, and had ordered the Police band in to play for them; but the Lord Mayor bundled the players and the 'pollas' out. Quite right. Dancing and tomfoolery at the Mansion House while thousands of poor creditors are clamouring in vain at its doors are very much out of place.

Another poor artilleryman had his arm blown off on Thursday in the Once de Setiembre Battery while a salute was being fired. As regularly as a National Anniversary comes round we have to report an accident of this kind. This speaks but little for the skill of the artillery officers in instructing their men. A colleague says Prussian guns were used, so there is no excuse this time for such a lamentable occurrence.

Swelled Up—"Fellow trabellers," said a colored preacher, "et I had been eatin' dried apples for a week, an' den took to drinkin' for a mont', I couldn't feel more swell'd up dan I am dis minit wid pride an' vanity at seein' such full tendance har dis evenin'."

The local managing committee of the Navarro Racing Club deem it advisable, in consequence of the continued bad state of the camps, and of the general desire of the members of this club, to postpone these races, already announced to take place on the 1st and 2nd of September. The committee have further resolved (provisionally) to hold the next meeting, of which due notice will be given, in April or May of the ensuing year.

Football.—On Thursday last the return match, England v. the World, was played at Flores, but it was evident from the small attendance that other attractions had influenced many of the most regular players. All through the game England showed itself stronger than its opponents, and won by two goals to none. W. Tyndale, R. Walkinshaw and L. Woodhouse, distinguished themselves by some brilliant play, and the place-kicking was superior to that shown in the former match.

A new convent is about to be founded in this city by the Carmelite Order. Four Sisters have recently arrived to start it.

The official report of the city health for the fortnight says that illness has declined.

A young lady of 18 died from her father's house in Calle Tucuman two days ago. We suppose there is a Lothario in the case.

The Italian chapel in Calle Moreno was robbed of 50 gold rings, 25 pair of earings and 12 brooches by some sacreligious ruffians, all taken from a statue of the Virgin. Some nights ago.

The fine steamer Thales entered port yesterday with several Irish passengers. It is most distressing to find that the influential 'gremio' of shipbrokers will persist in mispronouncing the name of this fine steamer. 'The Thayles is in'! was the cry of them all on 'Change yesterday. Thahles, gentlemen, Thahles, for Heaven's sake! It is really shocking to find so influential and so Conservative a body utterly ignorant of even the Greek alphabet. Will no merchants of superior attainments undertake to show them the example of pronouncing the word correctly? Some brokers again go in for Theeles, Theless and other butchery of the word. By the time the ship returns from Rosario, we shall not be surprised to hear her called the Tea-leaves, or even the Tay-laves.

Mr. Daws, the famous literary caterer sent us yesterday all the latest London magazines. As to-day is a holiday, we hope to be able to review some of them in our next. Mr. Daws has extra numbers of 'Bow Bells,' Family Herald, London Journal and Young Ladies Journal, which new subscribers entering now can procure.

Thrilling news from San Isidro! On the 8th inst. the police broke open a suspicious looking house, erected alongside the line, two squares from station, and upon entering found skulls, skeletons, old daggers, &c. to any amount, which on the public hearing of it caused great excitement, and in about two or three hours after it became known, the most absurd rumours were knocking about, some saying there was a fresh dead body and skull; also a woman's head. Three men were taken to the Policia, but afterwards liberated. The Juez de Paz closed the house, and went to see Government about it.

At 7 a.m. on the 9th inst. an Italian was stabbed to death near the S. Isidro Station, in the centre of the town, and the knife left buried in the victim's stomach. There was two letters cut on the handle of the knife, by means of which the owner of the knife has been apprehended, and now lies in prison; so we may count on having another frontier protector in the person of the assassin. The motive is supposed to have been robbery.

Advices from Cordoba state that it has not rained up there for two months and that the cattle are all as thin as whipping posts.

The Royal Mail steamer Boyne will sail on Wednesday. Packet Edition on Tuesday immediately after breakfast.

Our friend Mr. Walshe, proprietor of the Lime Works at the Cinco Esquinas, showed us yesterday the wonderful stone that has created such a sensation in the scientific world within the last few days. It formed the centre of a large block, and in it are imbedded pieces of seaweed of fantastic shapes, giving the face of the stone the appearance of a lithograph of elaborate design. Mr. Walshe kindly wished to present this curiosity to the STANDARD Museum, but we declined to deprive him of such a rare treasure. He tells us that he has burned 150,000 tons of lime stone in his lite, and never came across anything like it before. The stone was found near Montevideo, 15 miles from the sea.

CAMP ROBBERIES.

To the Editors of the STANDARD.

Gentlemen,

As murders and robberies are the rule in the camp, I think it is but right that every murder committed should get the fullest publicity, so that the public may know how the Government of the country protects the lives of those who settle in the camp, and whom they encourage so much to come to the country.

A few days ago the murder of a well-to-do Irishman on Mr. Pacheco's estancia was published in your paper, but we have not yet seen that the perpetrators of the crime were caught and sent to await their sentence, which, no doubt, could have been done. Now I have to inform you of the murder of an Irishman named Thomas Farrell, living on the estancia of an Irishman in the partido of Chacabuco, six leagues north of Chivilcoy. He was an unmarried man, but most steady and industrious. He could speak little or none of the language of the country, and consequently had no connection whatever with the natives.

The murder was committed on the night of the 21st June. He had been seen at sundown shutting his flock of sheep: this was the last time he was seen alive.

The next day it was observed that his flock was still in the corral at a time when it should have been feeding in the camp. This, of course, brought some of the men on the estancia to his 'puesto' to see what was wrong.

The first thing they met was the horse the unfortunate man had ridden the day before; the bridle was still in his mouth, but the 'recado' had been taken. The door of the house was locked, and when broken open, the sight which presented itself was truly shocking.

It appears that the man, on going into the house, was met by at least two demons, who gave him thirty-five stabs, any one of which was sufficient to cause immediate death; but, not content with killing him, they actually ploughed up his body, as it were.

They then locked the door and threw the key into a ditch hard-by, where it was afterwards found. The nearest authority to call on was the Alcalde, but he was not at home. The Alcalde of the next Cuartel was then called on, but he could do nothing, as the murder was not committed in his Cuartel, and be it known that he did not live 15 squares from the place where the deed was perpetrated; but he sent his Teniente to look at the body, and then the law was satisfied. By these acts the public will see the awful state of the camp. This is one of the many murders committed, and yet the assassins are never brought to justice, and if by chance they be, they are sure to be let off unpunished. The terror of the people in the camp is something which cannot be described. A great number of families have already retired to the little camp towns for temporary protection. Bands of armed 'gauchos' are prowling about the camps, robbing and murdering in all directions, and even the local authorities are afraid to interfere with them.

The Government is well aware of all this, and yet they actually do nothing to protect the people or their interests. These bands of 'gauchos' go to the Estancias and drive away the horses before them, the very owners looking on, but they are afraid to meddle with them.

It is now likely there will be a regular stampede from the camp, and numbers of those who settled there, will sell out and go to some other country where there will be protection for life and property.

THE GUATEMALA OUTRAGE.

(From the "Panamá Star.")

A protocol has been drawn up as to the satisfaction which Guatemala ought to give to the English Government, on account of the outrage committed in the Port of San José on Mr J. Magee by Jose Gonzales, of Spanish origin, in the service of the Government.

1st. It was, according to the said protocol, accepted as satisfactory by Mr Scholfield that the delinquents had been submitted to the tribunals of the country for trial and punishment, according to the laws.

2d. The Government, to show the profound regret for the occurrence of such an outrage within its territory, would salute the British flag in the Port with 21 guns.

3d. In reply to the demand of Mr Scholfield for an indemnization to Mr Magee besides, the Minister thought that his Government was not called on to accord any indemnity, inasmuch as Mr Magee declared, that he wished for nothing of the kind, as well as from the circumstances and general principles of justice which ought to govern the case; but that, if nevertheless the British Government, on understanding the nature of the case, and the regrets of the Government of Guatemala, should insist on an indemnity, then the government of Guatemala would enter into negotiations to that effect.

4th. That according to terms the affairs to which the Protocol referred, were agreed on, and that the Government of Her Britannic Majesty would make no claim in future except in the view taken in point 3rd as to indemnity.

AZUL AND TANDIL ENGLISH RACE MEETING.

This meeting was to have come off at Mr. William Lowrie's estancia on Wednesday, June 10th, but owing to bad weather only the Three Square Race was run on that day, the other events being decided on the 11th. Owing to the heavy rain and other drawbacks, the meeting was a very small one, but all passed off very satisfactorily, and the entries for the several events were pretty numerous.

Mr. William Lowrie kindly officiated as judge.

The following is an account of the racing:—

Three Squares.

Mr. T. Thomson's colorado Tandilero	1
F. Finnie's saino Refalloso	2
W. Lowrie's overo Martinet	3
A. Aspinall's sebruno Forlorn Hope	0
C. Copland's malacara Gi-nlivet	0

Tandilero was the favorite and won easily; a length between second and third.

Azul and Tandil Silver Challenge Cup.

Distance, one mile and a half. Weight, 11st 7 lbs.

Mr. Finnis's piasso Bobtail	1
R. G. Wilson's entrepelado Cheltenham	2

This Challenge Cup, the first run for out in these parts, has to be won twice in succession before it becomes the property of the winner, Only two horses came to the scratch, Bobtail and Cheltenham, the latter starting with the betting 2–1, and few takers. Bobtail took the lead and kept it for about a mile, when Cheltenham went ahead. On rounding the flag for the run-in, however, Bobtail was again ahead, and won very easily 'hands down.' Bobtail was ridden by Mr. T. Thomson and Cheltenham by his owner.

Ten Squares.

Mr. A. Lowrie's overa Ranquel	1
T Finnis's saino Refalloso	2
G Gavon's overo Smoke	3
W Lowrie's picasso Rob Roy	0
R Boffy's malacara Pasuco	0
D Cameron's picasso Jolly Boy	0

Ranquel, Retaloso and Smoke went away from the others, and at the five squares Ranquel cut out and won very easily two lengths between second and third.

Five Squares

Mr. A Lowrie's overo Ranquel	1
T Thomson's saino Galgo	2
C Lowrie's oscuro Black Prince	3
T Finnis's saino Refaloso	0
G Gavon's saino Tigre	0
A Aspinall's sebruno Forlorn Hopo	0
R G Wilson's entrepelado Cheltonham	0

A good race won by half a length, a length between second and third.

Consolation Stakes.

Mr. T Thomson's saino Galgo	1
J Maitland's overo Martinet	2
R Lowrie's oscuro Black Prince	3
T Finnis's saino Refaloso	0
G Gavon's overo Smoke	0
R G Wilson's entrepelado Cheltonham	0

Galgo and Martinet made a fine race of it, the former winning by half a length. Black Prince well up.

VALEDICTORY.

B. Ayres, July 11th, 1874.

To the Editors of the STANDARD,

Gentlemen:

Permit me to make your popular journal the medium of saying my farewell to the Irish residents of this province. I am very grateful to them. Their hospitality is exceeded only by their generosity, of both which attributes I have had ample experience during my stay here. I cannot fill your space by mentioning names; but, to give an idea of my gratitude, I shall only say that my most ardent wish is to be permitted by my superiors, when my present mission is over, to come out here and live, labour and die amongst the Irish here—the finest specimen of our race in or out of Ireland.

Believe me to be,

Gratefully yours,

Pius Devine, Passionist.

THE BEAUTIFUL BOYNE.

B. Ayres, July 11th, 1874.

To the Editors of the STANDARD.

Gentlemen,

Through the medium of your widely circulating journal, I desire, on behalf of my family just arrived from England in R.M.S. Boyne, to thank Captain Reeks, commander of that well known steamer, for the great kindness and attention he and his officers paid to them during the voyage. Their every wish was complied with, and they will long retain pleasant recollections of the gallant Captain and his well-managed and beautiful ship.

I have the honor to be,

Gentlemen,

Your faithful servant,

Henry L. de Torres.

ON 'CHANGE.

July 11th, 1874.

Cunces	400
Sovs	122½
Pats	25
Nat. Bonds	74
Cedulas	80

The Cedula market holds its own, prices if they don't go up much, don't go down and it seems probable that prices will harden at 80, at least until a fresh emission weakens the stock. The general improvement in the market which we noted in our last is admitted by all, money is freer, exchange looks upward and exporters are certainly making money, the dead weight on the market is the bills and mortgages that hang over since the hard year of 1872. If the market was clear of these bills money beyo question would rule easier. Money is offered on stocks freely and to-day 46,000 pats. were lent on Cedulas at ⅞, first class trade bills are done at 10 and 12 per cent.

The payments for produce to day were not to say heavy, yet sufficient to show that something during the week had been done in produce. Collections through town are still complained of; 'tenderos,' as a rule, have no money. The payments at the banks for exchange were large, and there seems good reason to suppose that the business for the Boyne will be very heavy.

The auction sale of the house and prémises in Plaza Victoria, Reconquista, attracted notice. The premises are 18x31, with old house thereon, facing the Cathedral—sold for 1,800,000 m/c, Mr Dorrega buyer, Mr Ghirald z broker. The price paid gives 3225 m/c per vara cuadrada.

There was much fuss on 'Change to-day about the bother and trouble in getting bills of exchange from the Provincial Bank, so much so that some parties who had sent 'solicitudes' withdrew them when they found they could get no satisfactory answer from the Bank. A facetious broker on 'Change made out the following programme—

1. Apply to know if bank draws.
2. Do. do. at what rate.
3. Present 'solicitudes.'
4. Call for answer.
5. Mr. Marenco knows nothing; see President.
6. No board meeting.
7. Clients furious at delay, and blame broker.
8. Half amount granted.
9. Go to Oficina de Cambios, change paper money to gold; paper money not received by bank for exchange.
10. Rush off to house with bills to catch mail.
11. Names on bills all wrong.
12. Mail closes; steamer sails.

Up to four o'clock this afternoon none of the brokers knew how much exchange the bank had granted them, but on Monday the answer will be given.

It was rumored to day that the Bank draws at 48¾ and takes at 49. The blunder could not be greater. Had the Bank drawn at ½, there might still be some chance of its helping the market; but to try and make money out of the market is a bad way to help the market. In well informed circles it was well known how much the bank had already taken, would take, and would draw. Such matters can never be kept secret in a market so small as this; and a large business done by one of the private banks at 48¾ was generally said to have been taken by the Bank.

The sales of stock to-day were—

Cedulas.		
For cash	8,600	80½
do	3,600	80¾
End month	100,000	80½
do	20,000	80½
do	30,000	80⅝
do	10,000	80½
do	20,000	80½
July 15	80,000	80½
Aug. 31	10,000	80½
July 15	10,000	80⅝
Aug. 31	10,000	80⅝

In the liquidation 100,000 for end of month at 80½, market closed sellers.

There was much said on 'Change to-day about the money article in the *Tribuna* this morning advising the banks in order to help the market to put exchange at 46.

Mr. Anderson, of the firm of Russell & Anderson, was welcomed on 'Change to-day on his return from the rivers.

Mr. Michael Walsh, the well known lime man, exhibited on 'Change to-day a most wondrous lime stone from Banda Oriental with beautiful sea weeds stamped on the stone. We hear Dr. Rawson has inspected the stone and considers the plants have grown in the stone. All the brokers are astonished.

Exchange ruled to-day at the following quotations, and a large business already done for the mail—on England 48¾ Bank, 49¼ Commercial, and some transactions reported at 49; on France 5.12 Bank, 5.14 Commercial; on Antwerp 5.16 Commercial; on Montevideo par.

Mr. Sorna, the well known city auctioneer, has sold by auction a site in Calle Libertad, at Cinco Esquinas, along ide Promessi Sposi, 30x42, at the rate of 7,500 m/c, per vara front.

Mr. Emilio Hansen had just passed a brilliant examination, and receives his diploma as Public Accountant. We welcome this young man to the ranks and hope to see him doing a large business.

The tariff of charges for cable messages (20 words) from Pernambuco per Eastern Telegraph Co. and Brazilian Submarine Telegraph Co. were put up to-day on 'Change.

The sailing of the French mail steamer Gironde was the event of the day; she took a very heavy mail and a full list of passengers, but, we understand, no gold.

The Provincial Bank to-day began to draw exchange on Europe at 48¾, the rate we mentioned. It would have been much better for the bank and the market to have drawn at 49, since it would force private banks to keep up rate, but we cannot look for very comprehensive views from the Bank exchange people; they evidently don't understand the business.

Much attention is paid to the constant stream of gold that flows from here to Montevideo, and people ask, with exchange at par, why the specie goes down? It may interest merchants to watch how things go in Montevideo; for this purpose we give the following from the Bank statements for April and May. The figures teach facts worth knowing—

	May.	April.
Maua Bank—		
Discounts &c.....	$f.10,369,018	10,321,890
Deposits &c	7,323,284	7,143,421
Emission	1,877,800	1,924,050
Cash on hand.....	1,337,065	1,245,589
River Plate Bank—		
Discounts &c.....	5,200 548	
Deposits.....	4,666,022	
Emission.....	1,07 ,340	
Cash on hand.....	1,8 3,188	
Commercial Bank—		
Discounts.....	4,425,047	4.796,834
Deposits.....	3,393,359	3,493,023
Emission.....	1,073,170	1,017,720
Cash.....	1,738,945	1,412,272

We have not at hand the River Plate Bank statement for April, but as will be seen by the foregoing figures the Banks down there are increasing their cash and restricting their emission.

On next Friday the very splendid premises occupied by the *Telegrafo Maritimo* in Montevideo, at the corner of Calles Piedras and Solis, will be sold by judicial sale; we note by the valuation, 40,120$f. m/n., that property in the Mount is much lower than here. Mr. Guimaraen's magnificent house in Calle Uruguay, one of the finest houses in Montevideo, 22 rooms, and beautifully finished, is also to be sold at auction. The house cost to build 75,000 pats., valued now at 49,848 pats.—lowest bid, 33,232 pats; less than half the cost of the house to build.

We received to-day an amusing biographical sketch of Mr. Stump, the late Franco-Argentine banker. Mr. Stump was known in parts as Conde de Montragou, born in 1831 at Richen, close to Basel, Switzerland. His father was a most respectable man, and put him in the banking house of Passavanto and Co., and in 1850 Mr. Stump started in business at Basel, which collapsed. He then travelled over the world, New York, Japan, China, Australia, Cape Good Hope, and finally turned up as a photographer in Calle Defensa. After which he went to Rosario, and from thence to Montevideo, where he succeeded in starting his famous bank, that came to such conspicuous grief. We eliminate much from our correspondent's letter, who doubtless is a creditor of the defunct bank.

There is a great push now made to unite the Plate with Rio; we read of a chasque sent to Yaguaron with news for Plate, but the message could not be sent on and chasque had to return with message; this is missing fire; however, we believe in a very few days stand by O'Gorman in Rio Grande will send us through news, Europe to Buenos Ayres. It takes 2½ hours to send a message from Rio to London.

Madame Ristori's net profits here during her last engagement amounted to close on three thousand pounds sterling; good this for a place suffering from a severe money crisis.

Last news from Rio confirms what we already published about the Gran Chaco question; all parties leave it to arbitration; the question now is who is the arbitrator.

Captain Fergusen of the ss. Thales, was welcomed on 'Change to-day; he has brought out a fine list of Irish passengers, 300 tons cargo for Montevideo, 950 for here and 300 for Rosario; he leaves for there to-morrow and will be down about 19th; he never spoke a vessel the whole way out.

The following respecting the Paraguayan loan is not devoid of interest—

"Why we lent the money at all, and why they don't give us back some of it by way of getting some more from us, are equally unintelligible by any ordinary methods of reasoning. What they have done with the money is another wonder. Army, the great expense of nations, they have none, beyond a few militiamen without small clothes or rifles; nor any commissariat, except a sack or so of oranges, which they pick off the trees as they march along; nor any fleet but a few balsas, something between a bumboat and a timber raft. The country is of that character that it is impossible to spend any money in it. Everything you can possibly want grows to hand—music and dancing costs nothing, as the latter is usually performed without shoes and stockings, and the former is from the guitar, which every one plays and carries. But the agents of the Paraguayan Government have had three millions of our money, and what have they done with it? They were to have encouraged emigration: but when the emigrants arrived the land had not been surveyed; there were no victuals ready for those English people but maize flour and oranges; no sheds even for them to sleep in; no ploughs, as promised; no cows, as hoped for; no pigs, as already devoured in fancy; no sheep, no seeds, no tools. The sulking emigrants were snubbed, and the powers of those who had sent them over being conveniently repudiated because their agents accompanying the emigrants refused to hand over to the Government the funds entrusted to them as a supply against accident and unforseen necessities — the Paraguayan Govt. threw the luckless emigrants over altogether, refused to provide either food or land, and left the poor laborers to perish or find their way back by thirty-five days' journey by steamships without money to pay the passage. Hence an alarm throughout Europe. Then the Government were to sell lands to cover instalments of the loan; but they quarrelled with the commissioners they had themselves appointed, and refused to complete purchases agreed upon. Then they were to make roads and build bridges but they made neither; they were to institute schools, but they have built prisons; they were to set aside revenues, but they have put them into their own pockets; and, at last, as soon as the time came for them to send money over—for all as yet paid had been from what the contractors had reserved—they declare themselves insolvent. That is South American honesty; but it is not what was expected from Paraguayans, and is the first instance of bad faith to be recorded of the nation who are thus disgraced by their Government. Now these loans are secured by bonds of lands and revenues, but who is to enforce them, and in what court? As for the Council of Foreign Bondholders and the credit of Paraguay, what is the use of talking about these to a people who live upon oranges, grow their own tobacco, coffee, sugar, spices, tea, and cotton; a people who for half a century lived (under De Francia) entirely without communion with the outer world, and did not feel the want of it? The only hope of the Paraguayan bondholders lies in Brazil, and her final occupation of the country, which must take place sooner or later. Brazil will then, as a matter of course, be glad to take upon herself the debts and raise more money, which will cheerfully lend her upon Brazilian security.—*Investors' Guardian.*"

The following is the list of the new board of the Provincial Bank of Santa Fe—

President, Don Benjamin Ledesma.
Vice-President, Don Carlos Casado.
Directors, Don Mariano Alvarado.
Manuel Carles.
Quintin Castañaga.
Meliton de Ibarlucea.

It is to be hoped that now that the board of directors is finally established, there will be no further delay in the opening of the bank. Some parties here are anxiously enquiring what has become of the million of patacons specie, proceeds of the Santa Fe loan, and which was paid over by the National Bank. At first it was rumored that this specie was deposited in the River Plate Bank, Rosario; but we find, on looking over the balance of that bank for the 31st May, 1874, that the money is not there, for the amount of cash on hand at that date was only 206,325 pats. and 353,444 Bols. Neither is the money in the Argentine Bank of Rosario; the balance of same date gives cash on hand 362,139 pats. and 138,103 Bols. The probability, therefore, is that the money has found its way down to this market, where it has been placed out at interest on call.

The Montevidean papers have recently published a letter from the pirate Vedra respecting the unfortunate steamer Porteña. There in duce us to put the question, was Mr. Basso ever paid for the loss of the steamer? Possibly in no other country in the world could such an outrage upon private property be tolerated without at least remunerating the owner for his loss, and it is difficult to suppose that the government repudiates the obligation.

There was much said on the Bolsa to-day respecting the very negligent manner in which the balance-sheet of the Provincial Bank for the last month was given to the public. As Mr. Charles Casares, the president of the bank, reads English, we hope his attention may be called to the matter, as we are quite certain none of the bank directors would be a party to such informal statements. In the extract published in the *Pampa* the issue of metalic notes is completely omitted. As it is hardly possible that these notes could have been all sent back to the bank for gold, we attribute the omission to a slovenly error on the part of our colleague, but others may not look at the matter in the same light. The management of the exchange operations of the bank is also open to much comment; the business, it seems, is in the hands of a sub-committee composed of persons who have very little experience in exchange transactions, and the sooner there is a reform in this matter the better.

In last November the barraqueros of Montevideo came to an arrangement amongst themselves respecting the receiving of produce, and laying down certain rules and regulations which they all agreed to, In a few months the advantages arising from these rules were obvious, for instead of 50 per cent 'desechos' in the delivery of dry cow hides the average fell to 20 per cent. In April last, however, a barraquero named Beanza was accused of breaking the laws in the receiving of some hides, and as the fine by the Society was 2,000 pats the affair became a serious one for the barraquero; the question resulted in a lawsuit, and after lengthened evidence on both sides, the barraquero was condemned. We may add the only charge against the barraquero was receiving hides and sheepskins without a proper classification.

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach very large amount.

These advantages have not hitherto been enjoyed, in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Maua & Co. of this city, following he noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Maua & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Maua & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

CELEBRATED SHEEP-DIP,
LICOR DERMATOSICO.
PREPARED BY
TORRES & CO., Druggists,
DEFENSA, 65, 67 and 69.

Guaranteed Infallible for the Cure of Scab in Sheep.

After long and innumerable trials, we have succeeded in preparing the above Sheep-Dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being

COMPLETELY SOLUBLE IN WATER,

a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of

Salt Rheum. Tetter. Scald Head.
Syphilis, or Veneral Disease.
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever,
& Dumb Ague.

As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula; but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla; and in this way facilitate the return to healthful functional operations.
